

Coach Instructions for Regional Wristbands 2016-2017

Students can only be wearing one wristband during the competition. Students cannot be on both the JV and Varsity team at the same tournament.

Coaches will receive 2 wristbands per school not per team.

All wristbands MUST be labeled with the team number.

VARSITY WRISTBAND PROCEDURES:

1. Each team will receive a maximum of **15** wristbands and **1** alternate wristbands. The coach will only receive the number of wristbands for the number of competitors on the team (a team of 12 will only receive 12 wristbands).
2. The coach counts the wristbands at the registration table to make certain that he/she received the correct number of wristbands.
3. All competitors must be wearing a wristband in order to compete in the tournament.
4. The students should put the wristbands on so they fit snugly and cannot come off.
5. Event supervisors are instructed to check for student wristbands as the competitors walk into their event. The event supervisor will note if a wristband is not on or too loose and send the student to headquarters immediately. The student will not be able to compete until the wristband issue is fixed.
6. Trial Events require wristbands. Any student may participate in a trial event as long as they have a competitor or alternate wristband.
7. If a wristband is broken or damaged, the head or assistant coach must bring the **wristband and the competitor** to headquarters for a replacement.
8. If the team number is missing or if it washes off from the wristband, the student will supply the team name and number to the event supervisor. The student can still compete in the event.

JV WRISTBAND PROCEDURES (Regionals only)

1. Coaches will receive one wristband per JV team member. (25 max)
2. All the rest of the rules are the same.
